microfibre black

CO2 emissions and efficiency*

CO2 emissions and fuel consumption figures in mpg (litres per 100 km)
for this car.

* These are the "NEDC CO₂ values" according to Art. 2 No. 1 Implementing Regulation [\(EU\)2017/1153](#). The figures do not refer to an individual vehicle and are not part of the offer; they are provided solely for the purposes of comparison between different vehicle models. The values vary depending on the chosen optional extras. Since 1st January 2019, the energy and fuel consumption figures shown were determined by the Worldwide Harmonised Light Vehicle Test Procedure ("WLTP"). Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at www.mercedes-benz.co.uk/WLTP

Contact your Showroom to find out more about the energy classification for this car's tyres.
